

**SIA House
2 Trueman Place
Oldbrook
Milton Keynes MK6 2HH**

Apart from the Outreach Team, the majority of SIA's staff team are based in SIA House in Milton Keynes. This building is focused around a contemporary, modular design that also uses the latest in environmentally friendly technology. This technology helps to keep both the charity's overheads and the buildings maintenance costs down to a minimum, meaning the money we raise can go to where it's needed most – services to spinal cord injured people.

Our meeting facilities are available for use by organisations and include:

- Free car parking spaces, all with disabled access
- Four fully accessible toilets
- Use of our accessible kitchen facility
- A training room which can accommodate up to 50 non-disabled or 25 wheelchair visitors
- Hearing loop, PA system, wall mounted screens at each end of the room, floor mounted power supplies and optional lighting moods

You are welcome to come and visit SIA House but please let us know so we have someone available to show you around.

If you require further information, or if you or your organisation would like to make a booking for these facilities please contact our Reception [by email](#) or on 01908 604191.
